For your Protection .- Catarrh "Cures" or

sternally, usually contain either Mercury or

odide of Potassa, or both, which are injur-

ious if too long taken. Catarrh is a local, not

cold or damp weather. It starts in the nasal

passages, affecting eyes, ears and throat, Cold in the head causes excessive flow of

mucus, and, if repeatedly neglected, the results of cutarrh will follow; severe pain in

the head, a roaring sound in the ears, bad breath, and oftentimes an offensive dis-

charge. The remedy should be quick to allay inflammation and heal the membrane. Ely's

Cream Balm is the acknowledged cure for these troubles and contains no mercury

nor any injurious drug. Price, 50 cents.
